

2020 Honey Bee Education Days at State Apiaries

Join State the *MDAR Apiary Program Bee Team* to get a tour of live working honey bee colonies, hands-on demonstrations of hive management techniques, and exposure to the latest knowledge on how to best sustain healthy honey bee colonies. These events are free and open to the public, but focus on beekeepers. Registration is not necessary to attend. Participants must bring protective clothing as it will not be provided and is required to enter an apiary. The same program will be offered from **10am-noon** on each date at both apiary locations, unless indicated otherwise. Alternate dates will be provided in the event of inclement weather.
